

Local Union Phone & Text Banking for the 2020 Election

The first step to organizing your local membership to participate in the 2020 Election is determining who is registered to vote and making sure they know how to do so come November. Below are suggested steps to get you started, but feel free to get creative to meet the needs of your Local!

- STEP 1** **Assign a point person to lead the Local's phone/text banking program**
- Communicate the program's plan to your Local's Political Coordinator (PC), if the assigned point person is not the PC.
- STEP 2** **Obtain and organize all necessary materials (lists, scripts, etc.)**
- Consult IATSE's *How to Establish a Local Union's Voter Registration Program* found in the resources tab of IATSEPAC.net.
 - Pull together a list of your Local's active and retired members.
 - Obtain a list of unregistered voters in your Local from the LAN, or by request from the IATSE Political/Legislative Department (polleg@iatse.net).
 - Cross reference the two lists to determine who needs to be registered, and who simply needs to be contacted about the updated voter rules in your state.
 - Compile a draft script for volunteers to use both when making phone calls and sending texts. (*Sample scripts provided below*)
- STEP 3** **Set a schedule and recruit volunteers**
- Determine how much time you need to call/text through the members of the Local.
 - Send an email to your Local membership asking for volunteers.
 - Reach out to specific members who may have demonstrated an interest in political action.
- STEP 4** **Determine what can be done remotely**
- The COVID-19 pandemic will continue through Election Day. While we understand it is more enjoyable and often motivational to phone/text bank in groups, we encourage members to perform this work from their homes and seek virtual means of collaboration to avoid unnecessary exposure to illness.
- STEP 5** **Log progress, track results, and identify future action**
- Focus on contacts, not attempts – if we leave messages for everyone on the list, we do not acquire the data essential to future GOTV efforts.
 - We suggest using spreadsheets to track where people are within the voting process, so you can follow up appropriately with next steps.
 - Ex: who needs to register > have they done so? Who intends to vote > do they have a plan?
- STEP 6** **Share success and build momentum**
- Share photos on social media and email them to polleg@iatse.net.
 - Use #IATSEVOTES and tag @IATSE in social media posts.

Sample Text Scripts

- **Please do not contact members with this information using group texts!** This is important: It is illegal to conduct voter outreach by mass text without prior opt-in consent from all recipients, which we do not have. All correspondence should take place in individual conversations.

Voter Registration:

"Hi [Recipient's First Name], this is [Your Name] volunteering with IATSE Local [Number]. 2020 is going to be a landmark election in our nation's history, and we are working to ensure all Local [Number] members have their voices heard. After reviewing our membership records and the public voter file, it's possible you may not be registered to vote, so I'm reaching out to see if you would like some more info on how to get registered?"

If yes: "Great! You can double check your registration status and find instructions on how to register in [Member's State] here: iatse.co/checkmyreg"

If no: "Thank you for your response, and I hope you have a good rest of your day!"

***Please note that a recipient may respond that they are registered and that our data is inaccurate. This is a possibility - the AFL-CIO Labor Action Network tool cross references the public voter file and the local membership lists provided to the International to determine registration status. Sometimes small differences in these two lists can cause an individual's registration status to be listed incorrectly.*

If they respond they are registered: "Thank you for your response, and glad to hear you are registered. Errors like this can happen when working with public records. Sorry for the confusion and no cause for alarm. That said, are you interested in learning more about [Member's State's] updated rules around voting by mail and early voting?"

If yes: Proceed into the "Voter Education" script below as appropriate

If no: Thank them for their time and end the correspondence.
